Alexander Ulogov

Full Stack Software Engineer | AI & Automation

Experienced Laravel and Full Stack PHP Developer with 15+ years of experience building web applications, business systems, and custom software solutions. Strong background in Laravel, PHP, MySQL, Vue.js, APIs, and modern web development. Experienced in AI integrations, automation, AI-assisted workflows, LLM APIs, MCP, and intelligent business tools. Comfortable working independently or as part of a team to build scalable, reliable, and maintainable solutions.

Experience

2023 – Present · Leonard's Photography · *Full Stack PHP / Laravel Developer*

- Develop and maintain internal business applications using Laravel, PHP, MySQL, JavaScript, Vue, and Python.
- Build AI-powered workflows using OpenAI and Anthropic APIs, MCP, AI agents, prompt engineering, vector search, and embeddings.
- Work with stakeholders to turn business needs into technical solutions.
- Build prototypes and proof-of-concepts for AI tools, automation, and system integrations.
- Modernize legacy systems by migrating C#, VB, and MySQL-based applications to Laravel.
- Optimize large MySQL databases, complex queries, and application performance.
- Integrate APIs and third-party services including Google, Twilio, Mailchimp, and OpenAI.
- Containerize and deploy applications with Docker on Linux-based infrastructure.
- Troubleshoot application, integration, deployment, and infrastructure issues.
- Perform code reviews and provide technical guidance to junior developers.

Technologies: PHP 7/8, Laravel 7/8/11/12/13, MySQL, Python, JavaScript, Vue 2/3, REST APIs, Docker, Git, GitLab, Linux, Debian, Node.js, Bootstrap, Tailwind CSS

2023 – Present · Magicore Academy · *Full Stack PHP Developer, Laravel Developer*

- Collaborated with business owners to understand needs and develop custom web solutions.
- Built AI-powered tools for search, tagging, content organization using LLM APIs.
- Refactored legacy code to follow Laravel best practices and upgraded the application to newer Laravel versions.
- Developed and maintained admin, teacher, and student sections.
- Integrated APIs including Stripe, Clever, Articulate Storyline 360, and other third-party services.
- Set up and maintained a DigitalOcean Ubuntu server with a LAMP stack.
